Yonsei 28 is planning to travel to Matsue, Japan in late July, 2021.

The Yonsei program has been delayed this year due to the pandemic. However, our hope is that we will be back on schedule for travel to Japan in Summer 2021. Acknowledging the challenges of these uncertain times, we have decided to move cautiously forward with our Y28 program based on the tremendous interest from the community. We thank all applicants for their understanding during these uncertain times and look forward to discussing potential challenges with you at our upcoming Yonsei Information Meetings.
